Free, Independent Quotation Search Service

Cashflow Acceleration Free Newsletter

Since launching our free, independent quotation search service for factoring, invoice discounting, trade finance and asset finance I have received a number of requests for a newsletter to keep people up to date with the various offers within the marketplace and the types of facilities that I have been able to find for people. So here it is! I will send out another issue each quarter and would appreciate your feedback.

As always, if I can help you with a free, independent quotation search I would be delighted to hear from you. Call me on 01892 784183 or email me at info@cashflow-acceleration.co.uk.

With kind regards,

Sean

Over 33% Cost Savings for Many Clients

Since we launched our free, independent quotation search service we have helped hundreds of clients find costs savings on their existing facilities or to improve on quotations they had already received. We recently reviewed our performance and in many cases we have been able to save our clients 33% or more on the cost of their facilities . . .

- 1% Over Base Offer
- Help With Termination Fees

Factoring for Small Businesses

It used to be impossible to find factoring facilities for businesses with turnover of less than £200K per annum despite that being the time that many businesses need finance the most! Several providers that we deal with have now launched products that cater specifically for smaller businesses, with no minimum turnover, and we have successfully completed facilities for a number of small businesses . . .

Special Offer Base Rates & Help Paying Termination Fees

Everyone likes a discount! We have recently been advised by a couple of our providers that they will offer funds at 1% over bank base rate for the first 6 to 12 months of your invoice finance facility with them.

A number of our providers will also help clients pay the termination fee that is sometimes imposed by the existing factoring company. Good news if you are looking for a change but were worried about the cost of changing.
